

表2 白筋材料

Table 2 Samples of *Acanthopanax trifoliatum* used in this research

编号 No.	品种名 Species or cultivar	性状 The character for samples
1	白梗筋菜 Bai-geng <i>Acanthopanax trifoliatum</i>	嫩芽及成熟叶浅绿色, 中叶, 茎浅绿, 中刺, 高产, 主栽品种 Colour of young nud, mature leaf and stem is light green; the intermediate of leaf size and thorn length; heavy Prolificacy; main cultivar
2	细叶小刺筋菜 Xi-ye-xiao-ci <i>Acanthopanax trifoliatum</i>	嫩芽浅绿色、成熟叶绿色, 小叶, 茎浅绿, 低产 Colour of young nud and stem is light green; Colour of mature leaf is green; the small of leaf size; Poor Prolificacy
3	紫柄筋菜 Zi-bing <i>Acanthopanax trifoliatum</i>	成熟叶绿色、嫩芽红绿色, 中叶, 叶柄和茎紫色, 中刺, 高产 Colour of mature leaf is green; Colour of young nud is red- green; Colour of petiole and stem is purple; the intermediate of leaf size and thorn length; heavy Prolificacy
4	大叶大刺筋菜 Da-ye-da-ci <i>Acanthopanax trifoliatum</i>	成熟叶绿色, 嫩芽红绿色、大叶, 茎青色, 大刺, 高产, 不耐高温 Colour of mature leaf is green; Colour of young nud is red- green; Colour of stem is bluish-green; the large of leaf size and thorn length; heavy Prolificacy; Not resistant high temperature
5	红梗筋菜 Hong-geng <i>Acanthopanax trifoliatum</i>	成熟叶绿色、嫩芽红绿色, 中叶, 茎红色, 中刺, 高产、生长快 Colour of mature leaf is green; Colour of young nud is red- green; Colour of stem is red; the intermediate of leaf size and thorn length; heavy Prolificacy;
6	青梗筋菜 Qing-geng <i>Acanthopanax trifoliatum</i>	嫩芽及成熟叶绿色, 中叶, 茎青色, 中刺, 高产, 主栽品种 Colour of young nud and mature leaf stem is green; Colour of stem is bluish-green; the intermediate of leaf size and thorn length; heavy Prolificacy; main cultivar
7	细叶密刺筋菜 Xi-ye-mi-ci <i>Acanthopanax trifoliatum</i>	嫩芽及成熟叶绿色, 小叶, 茎青色, 刺密, 口感甜, 易受蚜虫危害, 低产 Colour of young nud and mature leaf stem is green; Colour of stem is bluish-green; the small of leaf size; Thorn is dense; Flavor is sweet; Not resistant to <i>Macrosiphomella sanborni</i> ; Poor Prolificacy
